ROS-ME00 and ROS-ME01 - Disposal and recycling information

These symbols on the product, battery, literature, or packaging means that the products and batteries should be taken to separate waste collection points designate by local authorities at the end of the lifespan. This will ensure that EEE waste is recycled and treated in a manner that conserves valuable materials and protects human health and the environment.

The device has been packaged to protect it from damage in transit. The packaging is made of materials that can be recycled in an environmentally friendly manner. Take old devices to an electrical scrap collection point or a recycling centre. Contact your local waste disposal company or your local authority.
